An IIT Streamlines English Proficiency Testing with Smart Platform

Client Overview

A premier IIT in India, renowned for engineering and research excellence, having multiple academic programs spanning undergraduate, postgraduate, and doctoral studies

Challenges

- Ensuring unique questions per student
- Manual batch & time-slot assignment
- Tracking performance across sessions
- Preventing cheating and tampering

Solution

- Randomized questions per student
- Auto batch formation with IDs & slots
- Secure platform with real-time tracking
- Instant faculty reporting

Benefits

- Fair, efficient, and secure testing
- Real-time performance insights
- Reduced administrative workload
- Better student experience
