

# Case Study

## Ministry of HRD Automates Doctoral Fellowship Selection

### Client Overview

The Ministry of Human Resources Development, Government of India, oversees the Prime Minister's Research Fellowship to support doctoral programs across premier institutes like IITs, IISc, and IIITs.

### Challenges

- Selecting top candidates nationwide in a short timeframe
- Coordinating multiple institutes and disciplines
- Tracking research progress of all fellows
- Ensuring a transparent and efficient process

### Solution

- Cloud-based platform for end-to-end selection
- Online applications with document uploads and faculty references
- Multi-discipline interviews and automated seat allocation
- Progress tracking of ongoing research

### Benefits

- Fully online selection process
- Significant savings in time, effort, and cost
- Transparent and unified process
- Wider choice of institutes and disciplines for candidates
